

K-Love serves the community in many ways to honor our Lord Jesus Christ. Many in our community listen to the station for praise and worship and to be connected with other believers throughout the United States of America. The station plays a big role in my life & in others who listen to the station for the same reason to be in connection with other believers of the Lord Jesus Christ. I believe that the service the station provides is a valuable part of God's work in having people to know WHO HE IS, WHAT HE IS. Removal of the station would be a tremendous loss to the hundreds in our community who rely on the station for the support, encouragement and ministry of our social needs each and everyday of the year we become so accustomed to hearing. K-Love could be one's only resource of coming to know who our Lord Jesus Christ is. So by taking K-Love 88.1 off the airwaves the community would be hindered because of no knowledge of learning from there being no station to learn from.
